

What is the best invention ever created?

In my opinion, the best invention ever created was the camera. I love being able to capture a moment that could never happen in my life again. It is a blessing to have been able to see things that are not where I live or am able to see. Photographs help me see me when I was a baby or bring back memories of a loved one who has died. Pictures help me to think, "WOW! How could something so beautiful be real?" The camera truly is the best invention ever created.

Ella Barrett, 8th, Surgoinsville Middle, Mrs. Sauceman

The best invention ever created is the plane. A plane is the best invention because you can travel overseas. You can go on a holiday. Planes can fly places. A plane is a great invention.

Mason Cole, 1st, Hilton Elementary, Mrs. Light

I think bikes are the best invention ever created. You can go anywhere you want. You can go up hills and over mountains. You can also jump off little hills with them and do tricks. One of the best things is that you can race with your brothers.

Nick Gailey, 5th, Jonesville Middle, Mrs. Austin

You should know what the internet is. Almost 3.2 billion people use it every day at school, home, and work! But some people don't know the origins of our world wide web.

The internet was created on January 1, 1983. Today the internet is 36 years old. The creators were Robert E. Kahn and Vint Cerf. They must make a lot of money! The internet helps us with life in many ways. Our devices couldn't really work. The internet controls almost all apps and games we play! Did you learn anything?

I know I learned something. Also, now you know the origins of the internet!

Ashton Templeton, 4th, Miller Perry Elementary, Ms. Jeffers

If I have to choose I would pick the light bulb made by Thomas Edison. Without it we would not be able to do anything at night because the moon gives very little light. So the light bulb is a very helpful invention.

Hailey Warfe, 5th, Shoemaker Elementary, Ms. Garrett

I think the best invention ever created is called an insulin pin for diabetics because an insulin pin is something I have used for about a month. It is much better than a syringe.

Chelsea Ayers, 7th, Jonesville Middle, Mrs. Brooks

The best invention is the car. I personally do not drive them. I like them because you can get place to place a lot quicker, and they are safer than a person walking down the street.

A car is very cool because it has the radio.

That's only my opinion. It also has air conditioning, which if we didn't have air conditioning we would either have hypothermia or a heat stroke in the car. The thing I don't like about cars is you have to get gas for them to work and that takes up your time. I like that you don't have to drive in a covered wagon because they are not comfortable and they don't cover up the whole thing so if it's hot or cold, you're not going to like it. That's why cars are my favorite invention.

Zeke Roller, 2nd, Rock Springs Elementary, Mrs. Charlton

I think the best invention is a bed. I would be so grumpy if I did not have one. You do not want me to be grumpy. Can you imagine sleeping on the ground with only a straw mat?

I do not think that would be comfortable!

Madeleine Love, 2nd, Rock Springs Elementary, Mrs. Charlton

My paragraph is about the ice resurfacing machine. It is huge. Mr. Frank Zamboni is the man who created this machine—invented in 1949. It was invented because they could not get the ice even with an ice pick. The machine carves the ice to where ice skaters could skate without falling on their faces.

Titus Hobbs, 4th, Miller Perry Elementary, Ms. Jeffers

Lights are the best invention because when it is dark you can turn the lights back on.

Emmalin Bruner, Kindergarten, Hilton Elementary, Ms. Howe

The best invention ever would be a robot that does homework and chores. I wouldn't have to do my chores or homework.

Khylin Barber, 2nd, Nickelsville Elementary, Mrs. Gilmer

The best invention ever created is medicine. I think medicine is a good invention because if you were sick the medicine could help you feel better. Medicine is also good because when you get better you can go outside and play.

Amelia Arrington, 1st, Hilton Elementary, Mrs. Light

I think the best invention ever created is the electric motor. It was invented by Michael Faraday. I mean just think, we wouldn't have fans, cars, airplanes, or helicopters plus tons

more. You wouldn't want to walk everywhere, would you? At least I wouldn't want to. How would we stay cool in the summer besides a pool? That is why I think the electric motor is the best invention ever.

Taylor McKnight, 5th, Jonesville Middle, Mrs. Austin

I think the best invention ever is Legos because they give me inspiration. Building with Legos has always inspired me to become an engineer.

They make you use your imagination to build things you never thought you could. I've been building with Legos for years, and it has never gotten boring. Also, whenever you're building with Legos and you find the right piece you feel a wave of satisfaction. This is why I think Legos are the best invention ever created.

Kelton McAmis, 8th, Surgoinsville Middle, Mrs. Sauceman

The best invention is my table because we have somewhere to eat.

Owen Lane, Kindergarten, Hilton Elementary, Ms. Howe

The best invention in my opinion is the PlayStation 4. The reason I think the PS4 is best invention is because you can play games on it like Fortnite, Apex Legends, and Rocket League. There is also a setting where you can change your background and you can also create a party with your friends. There is an internet browser so you can watch YouTube and you can get Netflix on it. Those are the reasons

I think the PS4 is the best invention.

Brayden Hill, 5th, Shoemaker Elementary, Ms. Garrett

The greatest invention, I think, is pencils.

If we did not have pencils we would not be able to erase.

Ashton Elliott, 6th, Jonesville Middle, Mrs. Jones

My favorite invention is the phone. I think the greatest invention is the phone because you can play games on it as well as text and call. The game I like to play on my phone is Blocky Christmas. I also like to text and call.

When I text I like to text my mom and when I call I like to call my pa and mom. These are the reasons I pick my phone as the greatest invention.

Kayllen Lane, 2nd, Hilton Elementary, Mrs. Edwards

The best invention ever would be a steak dispenser and a coke dispenser.

That would be so cool!

Clay Broadwater, 2nd, Nickelsville Elementary, Mrs. Gilmer

I think the best invention ever created is the Chromebook. Chromebooks can help you do your homework. It can help you on multiplication. If you need help on multiplication just type in "multiplication flashcards." You can also look up presidents and see pictures. That's why I think Chromebooks are the best invention.

Reese Stallard, 2nd, Hilton Elementary, Mrs. Edwards

I think the best invention created is school because it makes kids learn and it's a place for them to make friends.

Dylan Middleton, 7th, Jonesville Middle, Mrs. Brooks
