

If you won the lottery, what would you do with your prize?

Poof! Thousands, perhaps millions, of dollars appear in your bank account. You won the lottery. What happens now? Do you donate the money to charity or do you buy a new chocolate fountain?

If I won the lottery, I would spend the money on a few different things. Firstly, I would put some of the money away for college. College is expensive and that money would be extremely beneficial for my future. After that, I would give some to my family. They have always been there for me, and I am extremely blessed to have them in my life. Then, I would use some money to travel around the world. It has always been one of my dreams to see all of the different cultures our beautiful world has to offer. Lastly, I would donate the rest of money to charity. There are people and causes out there that are more important than any chocolate fountain that I could own, but in more seriousness, there are people out there suffering who could use some help.

If I won the lottery I would help people in need. I would also help loved ones. It's very important to help people that don't have food and stuff like that. I think sharing is caring. Just like at foster homes. They take care of foster kids and people that can't take care of themselves. We all have to remember that not everything is about ourselves and we have to help other people. This is what I would do if I won the lottery.
